

## **NEW BUILD HOMES REBOURNE**

Rockbourne Homes is launched in Hampshire! The new build residential homes built by Parsons Construction Limited have been re-branded and launched this month as Rockbourne Homes, a dedicated new build and regeneration specialist arm to the long established construction company.

Due to the increasing demand for new build homes in the Hampshire region Steve Parsons, director of Parsons Construction Limited, believes that it is important for this division of the company to have its own consumer orientated identity demonstrating its commitment to providing its clients with the best possible buying experience.

The new brand name, Rockbourne Homes, gained inspiration from a local village near Fordingbridge, Hampshire. Rockbourne was originally the site of the largest ancient Roman Villa in the area and in 1942 pottery and other artefacts were discovered by a local farmer.

The Rockbourne Homes flexible approach is unique, being able to undertake individually commissioned bespoke projects, internal and external refurbishments as well as produce stunning apartments, modern town houses or luxury detached homes available to buy off plan or at completion.

Rockbourne Homes also represent great value for money. The materials are always of the highest quality and property prices are very competitive with the local market. Every home comes with the NHBC 10 year Buildmark warranty and Zurich Building Guarantee as standard offering real peace of mind for the homeowner. Rockbourne Homes endeavour to provide a low maintenance, safe and relaxing living environment with thoughtful interior design.

The Rockbourne Buying Experience aims to be as stress-free as possible. With a dedicated customer care charter they work closely with clients involving them at every opportunity. A comprehensive moving-in guide is made available for every homeowner as well as an after sales care policy offering reassurance and advice.

Rockbourne Homes will be officially unveiled to the public in summer when they open the doors to the newly refurbished Post Office in Bishops Waltham, Hampshire. Rockbourne took on the project in order to reinvest back into the community in which their head office is based. They are reconstructing the Post Office commercial property and developing the above space and disused warehouse behind the building to present a number of luxury residential apartments.
